- **IDENTIFY APPROPRIATE LEVEL** of brain stimulating curriculum for the memory impaired.

## About the RCCT

Ideal for Alzheimer's and other types of dementia.

### RCCT IDENTIFIES:

- RISK OF FALLS in the elderly cognitive impaired.
- Functional Age
- Functioning Range
- Stage of Dementia
- Appropriate Level of brain stimulating exercises
- Reveals potential memory deficits

The standardized RCCT was published in 1999. Brock, B. et al.

A grant funded research project established RCCT capable of identifying **Risk of Falls** in the elderly cognitive impaired. This peer reviewed article was published in 2005 in *The Journal of Gerontological Nursing*. Research was funded by HCR ManorCare Foundation

## RCCT Workshops

Workshop participants will learn about the RCCT and examine the rationale for its use.

Learn "hands on" how to administer, score RCCT, interpret potential memory deficits and identify how **RCCT results drive appropriate care plans of Alzheimer's and other dementia residents or clients.**
