**Owens Community College OTA Dept.**

**RCCT WORKSHOP**  
**SAT. APRIL 14, 2018**  
**OWENS COMMUNITY**  
**COLLEGE**  
30335 OREGON ROAD PERRYSBURG,  
OH 43551  
**HEALTH TECHNOLOGIES BLDG.**  
**ROOM 505**

## **Reality Comprehension Clock Test (RCCT)** *Healthcare's Most Powerful Cognitive Assessment.*

The RCCT is a standardized test used to assess individuals who are experiencing memory problems. The RCCT can identify the individual's Cognitive Status. This valid and reliable test can provide answers to difficult questions for the patient, their family members and healthcare professionals who care for them.

Questions such as:

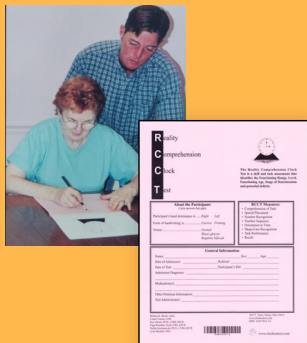

- Are they capable of caring for themselves?
- How much do they understand?
- Can they manage their bill paying?
- Are they safe home alone?
- Can they manage their medications?
- Do they understand healthcare instructions from their doctor?
- Are they capable of following discharge instructions from the hospital?

Healthcare professionals are required to earn RCCT certification so they can administer the RCCT. They can obtain RCCT certification by completing the 4.0 hour RCCT workshop entitled; **"Learn How To Tell More Than Time"**. **4.0 professional contact hours and certificate awarded to Occupational Therapists, Nurses, and Social Workers upon completion of this workshop.**

**Occupational Therapy Assistant Department of Owens Community College is proud to sponsor the RCCT Workshop on the Owens Toledo campus.** Don't miss out on this exciting opportunity to learn from the original creator of the RCCT and Published Research Author, Barbara Brock.
